- 1 large can per team (juice can works)
- Water

Divide your players into teams of 6-10. Place a bucket of water at one end of the field and the jar or can about 10 feet away (20 feet for adults). Each team lines up behind the bucket of water. The first person takes the spoon, fills it with water, and empties it into the jar or can. He then runs back to the line and hands the spoon to the next player. The first team to fill their jar or can wins!

**Bucket Brigade**
- 2 water bottles per team
- Small (bathroom size) paper cups

Divide into teams of 5 to 10 players. Each team will be given two water bottles, one full and the other empty. Each player will receive one cup. The teams line up front to back in a row sitting on the floor. The person in front will hold the full water bottle and the last person on the team will have the empty water bottle. On go, the first person in line will pour water into his cup and then without turning pour his cup of water into the cup of the player behind him. Each player will pour his cup of water into the cup of the next player. The last player will then pour his cup of water into the water bottle. As soon as the first player passes his water he can refill the cup and start passing again. They will continue until all the water is out of the first bottle. The team with the most water in the bottle at the back of the line is the winner.

**Fill the Bottle**
- 4 oz paper cups
- 20 oz plastic pop bottles
- clean bucket

Divide into teams of 5 to 10 players. On each team, one person lays on ground while holding a 20-oz plastic pop bottle on their forehead. Teammates run to bucket to fill up their 4-oz cup then they attempt to pour it into teammates’ pop bottle while standing over head. Then the next teammate will do the same until 20-oz bottle is filled. Once the 20-oz bottle is filled, the bottle person should run to the finish line without spilling.

At the other end of play field have a receiving bucket the same size for each team. Divide into teams. Each person is to go to the trash can, dip their pail into it, put the pail on their head or carry it in front of them, go down the field to their teams receiving bucket and pour what water is left into the bucket. Once they have done this they can run back to starting point and give their pail to the next person in line. The first team to fill their receiving bucket is the winner.

**Jump Rope Water Splash**

You can keep playing until only one person has water left in their cup.

**Over the Head Game**
- Buckets of water
- Sponges (can also be played with holey buckets)
- pitchers

Divide the group into two teams. Have them form a single file line facing the persons head next to them. At the head of each line put a bucket of water. At the other end put a pitcher with a line drawn on it. Give a sponge to the person at the head of the line where the water bucket is. That person has to dip the sponge in the water to soak in as much water as they can. They have to then pass the soaking wet sponge over their head to the person behind them until it gets to the person standing next to the pitcher. That person must squeeze whatever water is left into the pitcher and run the sponge back up to the head of the line. When this occurs, everybody moves back one position and the person who was at the back of the line now is at the head of the line. Continue process till the pitcher is filled to line.

**Sponge Toss Contest**
- Large car sponges
- large containers of water
- receiving buckets

Divide up into teams. You can have as many teams as you have equipment. Each team forms a line with teammates a little more than an arms length away from each other. At one end of the line is a large container of water with large sponges in it. The other end has a small bucket, which you could mark with a fill line to save time. When signaled to start, teams are to race. The person at the large container is to throw a sponge to next teammate and that person to the next until it reaches the end of the line. The last person squeezes the sponge out into the empty bucket and then runs to the
start of the line, dips the sponge in the large container and passes it to next person. After everyone has taken the sponge out of large container and passed, the team with the most collected water is the winner, or the team that reaches the fill line first wins.
